Annual Sales Review

Summary

Sales grew in every region this year. The strongest growth came from the northern branches, where two new stores opened in March and a third in September. Online orders also rose sharply after the website was rebuilt, and now make up a quarter of all revenue.

Costs stayed close to the budget. Freight was the only line that went over, mainly because of higher fuel prices in the second half.

Highlights

- Revenue up 18 percent
- Three new stores opened
- Customer returns down to 2.1 percent

Next steps

1. Open two stores in Penang
2. Launch the loyalty programme
3. Review freight contracts
